WHY IT DON'T.

A business man asked a representative of the Eagle, why it is that it is so difficult to come to a decision on the value of the Omaha connection, to the end that a solid vote might be polled next Tuesday.

Following up the hint, expressions were in fact from a large number of business men, in the city, that they were not in favor of the Omaha connection.

Result, not a single opponent of the bonds could be found. Every man seen had a dozen arguments in his favor at his tongue's end. "No Leavenworth's mistake," "No knocking under to Kansas City" or any other. If anybody knows of a taxpayer or voter who is opposed to the Omaha move—anyone other than the so-called contemporaries—and will point him out to the Eagle, he will be paid in full for his trouble in telling the people that the world is not against the Omaha move, and that the Omaha move is the staff of life, and it is discouraging work to try to convince everybody of a matter in which they are not more thoroughly persuaded than yourself. There is no opposition to the Omaha proposition, nor to Wichita making every effort possible to secure a northern independent trunk line railway at the earliest day possible.

BUILDING BOOM.

What is Going On in Wichita Outside the Business Streets.

The Steady and Substantial Growth of the Future Metropolis of the Southwest.

Having heard the opinion expressed that there is not half as much building outside the business area of the city as there was this time last year, an Eagle pencil manipulator struck out yesterday afternoon to see how it was, and the result was a big get around in an afternoon, and it is certain he missed many foundations that are shut out from view by the big sunflowers.

The Faber Linger first struck the Consolidated Tank line's works at the "Y" where he found a large squad of laborers and a big building under way.

The big warehouse, 80x32 feet, is well under way and the masons are beginning the foundation of the cooper shop, another structure 32x30 feet. A residence for the stable boss and employes will also be built right away. Speaking with Mr. H. P. Allen, the company's overseer, regarding future operations of the company, the reporter learned that next year another warehouse 32x50 feet will be built north of the present one by the Santa Fe track, and a large paint shop will also be built. Mr. Allen explained to the reporter how the walls of the warehouse would prevent the escape of fire, even should a fire occur within the tanks.

Speaking of the tanks, Mr. Allen said they had four different sizes, those that remain upon the cars being 200 barrels capacity, the three already here of 600 barrels each, which will be placed in front of the present warehouse, the next size hold 1,000 barrels each and the largest 2,200 barrels. Some of these larger tanks will be brought here next summer when the other warehouse is built.

Passing north of the Union depot the scribe saw three new buildings going up east of the railroad. On the west side of the track two blocks north of the depot Mr. Basenark is just finishing a neat frame residence. On the other side of the track one block north, Mr. C. L. Coburn and Mr. Clark are building each a very good frame house. From this point could be seen six small buildings of various kinds going up.

Passing west of Topeka avenue and taking in all that territory north of Oak street and between Main street on the west and the Santa Fe railroad on the east, the searcher for new buildings found: Mr. H.
